January 2023 – Version 1  
Food Safety Management System

## Food Safety Policy

Our food safety policy, formulated by the managing director, shows our attitude towards food safety and quality. It contains core statements that are readily tangible to employees and other interested parties. The food safety policy is reviewed annually as part of the management review process, continually evaluated for appropriateness, and establishes a framework for evaluating our food safety objectives. At a minimum, it contains a commitment to...

- ...fulfillment of applicable requirements (from customers, legislators, other interested parties),
- ...continuous improvement of the FSMS.

### Key statements on our food safety policy

- Safe to consume products are the main goal of our company.
- Quality is created at the workplace and is not the result of good final testing
- We control all processes to consistently meet customer specifications and all applicable requirements of interested parties.
- Each employee act on their own responsibility, as it pertains to their role and training, through interdisciplinary interdepartmental cooperation.
- We achieve quality improvement of processes, process chains and products through a continuous improvement process
- We promote employee commitment and motivation
- We facilitate training courses to improve the competence of employees
- We cooperate with suppliers for mutual benefits
- We maintain existing capital and strive to develop it further

Signature of the managing director to implement this food safety policy

Signature: \_\_\_\_\_

Date: \_\_\_\_\_

- We strive to improve our position in the market.
